

Beautifully decorated rooms

Caribbean Villas Hotel

Belize is a part of the British Commonwealth and has a peaceful, stable government. English is the main language but Spanish is also spoken on the island. Converting money is easy: Two Belize dollars equals One US Dollar!

Ambergris Caye is located in the Western Caribbean just off the coast of Belize. There are nonstop, 2-hour flights daily from Houston and Miami to Belize City. There are flights between Belize City and San Pedro every hour from sunrise to sunset. The island of Ambergris Caye is 25 miles long with palm fringed beaches and tropical jungle. Only 6000 people live in and around the town of San Pedro near the south end of the island. Caribbean Villas is located outside of town but close enough to easily walk or bike in for dining or shopping. Rental golf carts and taxis are also available.

The island offers a wide variety of activities. As your host we look forward to making recommendations and reservations to help create the vacation that is right for you.
